THANKSGIVING PESTIVAL.

"Thy bounty shines in Autumn uncomfined, and spreads a common fesst for all that live."

The month of November is especially appropriate for the observance of Thanksgiving, which has become one of four of our great national helidays. It is the harvest home of the seasons, the final garacting of the fruits which reward the toll of the busy year. To many it brings the fruits which reward the toll of the busy year. To many it brings the fruits which reward the toll of the busy year. To many it brings the many stage and such things as can not be placed on the falls which reveals the salad materials, the fruits and not need to scarch long for reasons to give thanks. And though individually we many homes the day will find only said hearts and moturnful memories, this is the common lot of all. If we can not repolec over-much within ourselves, let us stop and court our mercies and comparing them with others, see if we can not repole over-much within ourselves, let us stop and court our mercies and comparing them with others, see if we can not repole of the sea our much within ourselves, let us stop and court our mercies and comparing them with others, see if we can not repole our-much within ourselves, let us stop and court our mercies and comparing them with others, see if we can not repole our much within ourselves, let us stop and court our mercies and comparing them with others, see if we can not repole our marrow circle and be one of the great common brotherhood of man; rejoicing as one united family of patriotic Americans.

WHY WE CELEBBRATE

good and savory things hoating through the air.

THE MANY GOOD THINGS.

If there is, at any time, an excuse for reasonable human beings to be guilty of over-indulgence, it is certainly when this feast of over-generous nature is displayed in such tempting abundance before them. While we may not have the appetite to curioy the liberality of the fruits of all the earth that are now set before us, as our forefathers enjoyed their simpler and more homely viands, still at this season of the year appetite comes with eating and

of the year appetite comes with eating and—
"There is something kind of hearty like about the atmosphere.
When the heat of summer's over and the coolin' fall is here."

This it must be remembered, is, more than all things else, a family gathering; all needless form and ceremony are to be avoided. Thankfulness and good cheer are the spirits that rule the feast. There is very little variation in the dishes served, as certain viands are so closely associated with the day it would seem almost like sacrilegs to leave them off the menu or make any radical change in their preparation. Imagine Thanksgiving without turkey! One might as well forero the feast altogether as to leave this Hamfet out of the play. Many housekeepers prefer to wait for this occasion before serving the first turkey of the season; this is a very senable idea, as every one is better able to enjoy it when not satisfated groin a toe frequent diet.

MAKLING PREPARATIONS.

ter able to snloy it when not satisfied from a toe frequent diet.

MAKING PREPARATIONS.

Very often the young housekeeper, who perves her first Thanksgiving feast, in her desire to smulate mother's dinner, over taxes her strength, ability and nerves to such an extent she is unable to enjoy the dinner or the society of family and friends. This is containly love s labor lost. Beleet a few simple and appropriate dishes and do not attempt any great display of

honored custom, be served hot.

DECORATIONS.

For table decorations avoid hot house products, except chrysanthemums, then if the housewife is the fortunate possessor of her grandmother's willow-ware china or pattern of like design, she will find she can give a very effective colonial air to her dinner. Many an ingenious country hostess, when flowers are scarce, avranges a center-piece of the autumn leaves and vegetables, with dark green try for a back ground. A basket may be made from a medium-sized, common field pumpidn, filled with fruit and nuts and at the base the dark green by, to carry out the harvest-home idea. Those who live in or near country places have the mosses, ichena, bright red bernes and autumn leaves which may be gathered and preserved. Crimson geraniums and try leaves are very effective, giving warmth and added cheerfulness. Whatever may be used for decorations, the tablecloth must be pure, spotless white.

Reports of Indian Troubles in Northern Mexico.

Phoenix, Ariz., Nov. 21.-A message received here today from the San Carlos reservation says that no Indians have left the reservation, contradicting the belief that the Apache band which has been on the war path in Mexico came from San Carlos. There are no indications of the same to the same ions of uncasiness among the San Car-os Apaches.

A dispatch from Casa Grande, Mexico. states that the fight reported there be-tween Mormons and a band of Indians was grossly exaggerated. Slight trouble occurred near Colonia Pacheco, and the whites fired on a few wandering reds who plundered catables from a ranch house. One Indian is said to have been killed and another wounded.

It is true that traffic conditions and the nature of the business of these western roads give them an advantage, but the fact romains that they are being operated with surprising skill. Few persons reflect on the pecuniary losses which result from the most trivial errors of judgment in rallway operation, and the stock market is apt to ignore the genius for economy, which underlies every fraction of a per cent gained in the ratio of net earnings. Considered merely as an illustration of the scientific skill with which American rallways are now managed the table is interesting, and it affords a statistical basis for faith in the continued prosperity of the western roads.

Brotherhood Men Not Indicted.

Philadelphia, Nov. 21.—The United States grand jury ignored the bills of indictment against Issac A. Sweigard, former superintendent of the Philadelphia and Reading Railway company who was charged by the Brotherhood of Railroad Trainmen with having discharged employes of the Reading company because they were members of the brotherhood. The offense alleged constituted a violation of the Act of Congress of June 1, 1898, and the charge was by the president of the brotherhood, Valentine Fltapatrick, whose headquarters are at Cleveland.

It scarcely admits of controversy that the success or failure of railroad properties now depends principally on efficiency of operative management—there was a time when financial sagacity was the prime consideration. This being admit tod, it follows that the ratio between gross and net earnings from operation only is the most important criterion of the whelbeing of a railroad-because it is the index of efficiency in management. Derangement of the liver, and other internals organs as well as constipation often cause piles, and it is a mistake to treat it as a purely local disease; this is the reason why salves and ointments have so little effect and the widespread success of the Pyramid Pile Cure has demonstrated it.

Greater New York, Oct. 11, 1900.

Dr. Kilmer & Co., Binghamton, N. X.:

Gentlemen:—In justice to you, I feel it is my duty to send you an acknowledgment of the receipt of the sample bottle of Swamp-Root you so kindly sent me. I had been out of health for the past five years with kidney and bladder trouble. Had our best physicians prescribe for me. They would relieve me for the time being, but the old complaint would in a short time return again. I sent for a sample bottle of Swamp-Root, and I found it did me a world of good. Since then I have taken eight small bottles bought at my drug store, and I consider myself perfectly cured. It seemed as though my back would break in two after stooping. I do not have to get up during the night to urinate, as formerly did three or four times a night, but nowskeep the sleep of peace. My back is all right again, and in every way I am a new man. Two of my brother officers are still using Swamp-Root. They, likemyself, cannot say too much in praise of it. It is a boon to mankind. We recommend it to all humanity who are suffering from kidney and bladder diseases.

My brother officers (whose signatures accompany this letter), as well as myself, thank you for the blessing you have brought to the human race in the compounding of Swamp-Root. We remain, yours very truly,

"You have no idea how well I feel. I am satisfied that I do not need any more medicine, as I am in as good health as I ever was in my life." So a says Mrs. Mary Engelhardt, of 2,325 Madison Street, St. Louis, Mo., to a reporter of the St. Louis Globe-Democrat. "For more than ten years I had suffered with what the doctors termed female trouble; also heart trouble, with swelling of the feet and limbs. Last summer I felt so hadly that I thought I had not long to live. I consulted doctor after doctor and took their medicines, but felt no better. The physicians told me my kidneys were not affected, but I felt sure that they were the cause of my trouble. A friend recommended me to try Dr. Kilmer's Swamp-Root, and I must say I derived Immense benefits almost from the first week. I continued the medicine, taking it regularly, and I am now in splendid health. The pains and aches have all gone. I have recommended Swamp-Root to all my friends, and told them what it has done for me. I will glady answer any one who desires to write me regarding my case. I most heartily indorne Swamp-Root, and it goes right to the weak spots and drives them out of the system."

That Seems to Be Popular Basis For New House Apportionment.

Washington, Nov. 21.—Representative Hopkins, of Illinois, chairman of the house committee on census, which committee will have charge of the legislation affecting the apportionment of the house, today expressed the opinion that there would be no decided effort during the next session of congress to decrease the congressional representation of the southern states because of the disfranchisement of negroes. He said that in all probability the subject would be discussed, but he thought, that upon the whole the committee would favor the plan of hasing representation upon the number of inhabitants.

Discussing the general subject of resportionment, Mr. Hopkins said:

"The committee on census will meet during the first week of the session to frame a bill providing for reapportionment. It think that a proposition will be adopted which will increase the present membership of the house. It has been suggested that we authorize one member for every 108,000 inhabitants. That seems to be the ratio that is in general favor among members of the committee. This proposition would estable to 20 members.

"According to calculations I have made, this reapportionment would add

15 to 20 members.

"According to calculations I have made, this reapportionment would add members to the house from New York and Illinois and perhaps other states. States like Nebraska and Maine might lose members by the proposed law. Some of the southern states might also suffer from the proposition agreed upon alfrom the proposition agreed upon, al-though to what extent can not now be ascertained."
